

Just to let you know...

ENGLISH

This week the children have been given the task of choosing and researching a plant species. The focus has been to use a range of non-fiction texts to research and collate relevant information. They have used books and the internet to research their plant.

Why not ask your child about their chosen plant and any interesting facts they found out?

Words of the Week

aloft	another
asleep	awake
alive	alert
afloat	apart
aboard	ablaze
Bluebells	environment
wonder	watercolour
wander	

In maths this week, Year 4 have been having a great time learning about capacity, weight/mass, height and distance. Pupils had fun in the paddling pool measuring out different amounts of water and converting from millilitres to litres. In the length session, children were using formal and informal units to measure their height, arm span and leg length. During the weight session, pupils were using scales to work out the weight of Truffula Tree seeds and Humming fish eggs!

Don't forget to have a go at the mathletics task for this week.

Dear Parents

It's been such a beautiful week full of sunshine, we've enjoyed making the most of being outside!

Keep up the spelling and times tables practise.

We hope you have a lovely weekend.

Best wishes, Julia, Nick and Mel

PLANT DESIGNS

This week we have designed some magical seed packets for our amazing seed creations. The children have created wonderful designs for the front of their packets and written up instructions for growth on the reverse.

Thank you to all who have sent back their Bentley Copse forms... please keep them coming!
