## **CURRICULUM**

We appreciate all the help with learning our 'Ebenezer' words for the play. Year 3 are enjoying taking part in this performance.

The children will be planning and writing their own information book about an animal of their choice. The book will be in the style of the Mr Men

series and aimed at year 1 children. They are working hard to incorporate and explain different scientific vocabulary.

We are building up the skills needed to work on our extended maths project; this will involve designing and costing their own zoo. They will be applying all they have learnt about area, perimeter, multi-step problem solving and the four operations.
