

Topic Fun

We have kicked off the term reading the story of 'Where the Wild Things Are.'

We have been thinking about the lovely language in the story and learning to retell it through drama and writing. Soon we will be writing our own stories based upon this.

Boats

Inspired by the boat in 'Where the Wild Things Are' everyone worked really well to design, make and evaluate their own small boat! It was amazing to see so many boats of different sizes and shapes made from a great variety of materials.

'Wild Thing' dress up day!

Just for Fun the children can come to school dressed as a Wild Thing on Friday 9th February. A mask, hat, or a whole costume! It is up to you! Thank you

Adventures! — Parent Help...

We'd love some parents to come and speak to the children about interesting journeys/ adventures they may have been on. Have you climbed a mountain? Have you ridden on the back of an elephant? Are you a pilot? Have you sailed or trekked anywhere? Maybe you have walked along the river to Godalming? Let us know if you can come and share. The best times are usually first thing in the morning, or last thing in the afternoon, for about 15 minutes. Some pictures are always good to share with the children too, and learning a word or two in another language is fun! Thank you

Dates

Bed time Stories
7th February—more details to follow
Fluffy Friday 2nd February

Year 2 JTLYK

Maths

We have been learning about 2d and 3d shapes this week. We will put a word mat in the homefun books which we hope will be useful to remind your child of the shapes and their properties. Have fun spotting real life examples of cylinders, spheres, cubes, cuboids, and square based pyramids.
