

## HOMEWORK ACTIVITIES

Now that we have studied two contrasting environments (Antarctic and rainforest), the children are being set a project.

The children have been asked to compare two different species of animals in each habitat. They are to study the ways in which they have adapted to survive considering the following:

Physical appearance (colour, fur, feathers)

- Physical features (feet, beak, body shape)
- Feeding habits
- Behaviour
- Reproduction
- Specially adapted senses

The children have two-weeks to complete this. It is due in on Monday the 16th December at the latest.

*Just to let you know...*

### BIKEABILITY GROUP 10

STARTS MONDAY 2ND DECEMBER.

Dear Parents,

Finally, the time for the Christmas Play is here! Your children have been super busy this week putting the finishing touches to their brilliant play! Performances will be:

Monday & Tuesday- Nightingale/Shakleton  
Wednesday & Thursday- Keller/Mandela

All evening performances will start at 7pm.  
We look forward to seeing you there!

There is an optional late start on Friday—  
please arrive by 1030am.

Best wishes  
Clare, Mary, Sarah, Cheryl and Helen

If your child is performing in the school play please make sure that they are in for 6:30pm ready to perform at 7.

Main characters need to have a white shirt (we will provide a tie), everyone else needs to wear their house T-shirts and black trousers.

### MATHS

This week we have been focusing on solving multi-step word problems using RUCSAC. We will be continuing this next week, working on applying knowledge of all four operations.

### ENGLISH

This week, the children have written blogs imagining they are tourists exploring the Antarctic. Incorporating time connectives, WOW vocabulary and interesting openers, they have produced some outstanding pieces of work!
