

Maths

We have been learning about multiplication this week and have practised talking about lots of, groups of, times, and multiplying. E.g. 4 lots of 5 is the same as 4 groups of 5 or 4 times 5 and the answer is 20. We have learnt to draw an array which is a drawing to represent multiplication. E.g

$$4 \times 5 = 20$$

At home, can you draw arrays to multiply two chosen numbers (less than 10) e.g. 2x7, 3x4 etc.

St Paul's Trip

Please make sure your child is at school **by 8:45am** on Monday, so that we are able to leave by 9am to go to St Paul's Cathedral. Children will need to **wear school uniform** and a **coat**, and bring their **packed lunch in a rucksack they can carry**. They **do not need book bags** on Monday. We will return to school at 4pm for children to be collected.

This Week

We have enjoyed writing an exciting story about a finding a cave in the forest, and have carefully checked our writing to make it even better. We are also beginning to think about the Christmas play, and have allocated parts—the children all are really happy with the parts they have. We will be sending costume letters home next week. Today we have marked Remembrance Day with 2 minutes silence, and have talked about the significance of the day, and why we might choose to wear a poppy to remember people.
