

Year One Beech and Oak

House Netball

The children all enjoyed taking part in the House Netball competition on Thursday afternoon. There was some great teamwork from all the houses.

Early Morning Activities

It is so nice to see children chatting happily together and taking part in the early morning activities before we take the register at 9am. It is a very good settling time for the children and there are different activities for the children each morning.

Maths Focus

This week the children have been working really well at taking away. We have been working on applying our Subtraction skills to solving some real life subtraction problems.

Next week we will be using non standard and standard measure to measure the length and width of objects in the classroom and outdoor area. Try drawing round your child's hand and then playing a game of measuring how long your table is in 'hands.'

Harvest Assembly

14th October at 9 o'clock
We are collecting food for Guildford Action for the food bank which is for the refugees in Surrey. Please see the newsletter for more details.

Baby Visit

Thank you to Sky and William's Mummy for coming to visit Oak and Beech with their lovely Babies. The children really enjoyed meeting Elspeth and Sukie and were able to see at first hand how babies grow and change.

Baby Photos

A quick reminder to send in a baby/toddler photo of your child as soon as possible.

Cooking Money

Thank you for the money sent in so far and it is not too late to send in your £5.

Library Books

Monday morning is library for the children so please return the book so he/she can bring a new one home.

Visit from Reception

Last week we wrote invitations to Hazel and Willow asking them to visit us in Year 1. This week they came and our Year 1 children loved showing them their topic books full of lots of lovely work. We shared lots of slices of apple and all listened to a story together too.
