

Road Safety Week

This week has been Road Safety week at HTPD. The children have learned all about how to stay safe when near traffic, especially which side of the car to get out of (always the pavement side!). The children have designed posters to share Road Safety messages, and you will see some of these up around school. Please talk to your child about this really important learning, and maybe find time this weekend to practise using the Green Cross Code <http://www.roadwise.co.uk/schools/using-the-road/green-cross-code/>

REMINDER

Christmas Play

Your child needs to have brought their **named** costume in and handed it to a teacher in a **named** carrier bag by Monday 5th December. If you are having difficulties finding a costume please let your child's teacher know as soon as possible. Thank you.

This week...

We have been really pleased with the way the children have risen to the challenge of the Christmas Production, and they are all taking it very seriously. If your child has a speaking or acting role in the play, please help them learn their lines and stage directions over the weekend. As soon as the children know their lines off by heart (and their cues) they can take off with their acting and it is wonderful to see!

Next week...

Next Friday (2nd December) we have 'House Music'. Any children who would like to perform, playing an instrument or singing, should let us know as soon as possible. We will do our best to hear as many as we can. It is always lovely to hear the children perform.

Homework Books

We are amazed all the brilliant work in the homework books every week. Well done to everyone! Please keep sending them in each Wednesday, and remember to email us with any pictures you would like to share!

Maths at Home

This week we have practised adding, subtracting, multiplying and dividing, and have written calculations neatly into our books.

At home you could practise multiplying by playing this fun fish arrays game: http://www.learnalberta.ca/content/me3us/flash/lessonLauncher.html?lesson=lessons/08/m3_08_00_x.swf (or google 'fish array game' !)

...and you could practise subtraction here: <http://www.topmarks.co.uk/maths-games/subtraction-grids>

Email us and let us know what you think of this week's activities :)
